

ISG™ Plastic Card Solutions

The ISG offers a broad range of plastic cards to enhance your overall card. We take pride in our vast experience with card programs and buying power that enable us to bring you a secure, dependable and affordable solution.

Blank White Cards

Blank white plastic cards are commonly used with photo ID systems that print and personalize the entire card. Our graphics quality white cards are ideal for use in dye sublimation printers, offering exceptional quality and reduced waste. Optional composite cards contain a polyester material and increase the life expectancy of the cards up to 10 years. Blank cards are available for immediate shipment and in small order quantities.

Preprinted Cards

Preprinted plastic cards are used in a variety of applications such as credit, membership, loyalty and gift card. Pre-printing offers the very highest print quality and unique printing options. High quality litho, silk screen, and metallic hot stamp printing processes are used. The printing is protected with clear lamination overlay. The preprinted card manufacturing process is the same as used with major credit cards we all carry in our wallet.

Security Options

A variety of security options are available for blank and preprinted process. These are added during the manufacturing process, and include Black Light Ink, Infrared Ink, Micro Print, Opacity Mark, Holograms, and more. Many security experts recommend protecting your card program against fraudulent duplication by using one or more security features.

Card Options

For Blank or Preprinted cards, we offer these options.

- Magnetic stripe
- Signature panel
- Holographic sticker
- Hole punching

**A variety of card thicknesses are available, from .010" to .030".*

Proximity & Smart Cards

Higher technology cards such as proximity, contact smart card, and contactless smart cards are available in blank or preprinted with most options available. Ask your ISG representative about our high quality and affordable technology cards.

Specialty Cards

- Green Products – Recycled, Wood, Corn
- Clear, Glitter & Frosted
