

Admittance, Bedside, Lab & Pharmacy

PROCESS 24/7

Process 24/7 is available as either an off-the-shelf Windows-based (desktop or laptop) software solution or as a mobile solution for downtime patient admittance administration as well as for labeling at bedside, the lab, or the pharmacy.

The built-in **Virtual Form Designer** gives hospital techs the ability to quickly create the desired print formats for their patient wristbands and labels. Patient data is encrypted and is only accessible under administrators password control which can then be securely exported to the hospitals HIS via Excel file format.

The **Process 24/7** solution easily connects to ISG™ printers. It also supports Zebra and compatible printers by utilizing Direct Print Technology with no windows driver required. Labels, infant tags and armbands of up to 12" long are all supported.

Features Include:

- **Virtual Form Designer:** quickly create the desired print formats for patient wristbands and labels
- **Customizable Data Entry Fields:** build forms that capture exactly the data needed in the proper format
- **Security Filters:** set access rights for users
- **Barcode (linear & 2D):** choose from multiple industry standard barcodes
- **Graphic Logos:** print images as well as data on labels
- **Automatic Data Encryption:** HIPAA-compliant with encrypted patient data only accessible under administrator password control
- **Built-in Forms:** choose from a list of standard or custom reports
- **Multiple Printers:** select from multiple printers at the touch of a button
- **Re-print Feature:** easily print records saved from earlier sessions
- **Import/Export:** to and from the hospital's HIS via Excel file format

Identification Systems Group

— The ISG™ is a nationwide network of local experts in identification, security, and card personalization, providing high quality, cost-effective solutions backed by local support and the strength of our Professional Services Certification program. Each company works together to provide seamless nationwide support and collaboration in the identification and card issuance industry.
