- Easy to read LCD screen
- Full 8" OD roll media capacity
- Adjustable pressure and media sensors
- USB, Ethernet, and RS-232 interfaces
- 203 dpi or 300 dpi printhead resolution
- USB Host Keyboard Port
- Real Time Clock included

Industrial Strength Quality & Fast Printing Throughput

The Power of PAL

Printer Application Language (PAL) is a dynamic, fully functional programming language that interprets and accepts existing data streams from a host system without host reprogramming. A custom PAL program can be prepared for each of your unique applications and then preloaded into your ISG Summit Series thermal printer.

PAL programs enable label printer by filling in the variable fields using your current data stream - allowing you to update legacy labels / wristbands with barcodes, lines, graphics or scaled fonts to meet new compliance standards.
