

The Identification Systems Group (ISG) Donates to Ronald McDonald House

The ISG donates more than \$20,000 to the Ronald McDonald House of Phoenix that benefits the families of hospitalized children

Shawnee, KS (PRWEB) May 10, 2010

The Identification Systems Group (ISG), the nationwide network of local identification system integrators, announces donation to Ronald McDonald House of Phoenix for children. The ISG donated more than \$20,000 to Ronald McDonald House of Phoenix from its Third Annual Charity Golf and Auction event in Phoenix, AZ on April 19, 2010.

Ronald McDonald House Charities of Phoenix, Inc. provides a temporary home-away-from-home for families who must travel to the Phoenix area to receive medical treatment for their children and also supports programs that directly benefit children and their families in the community. Ronald McDonald House of Phoenix (RMHC) is truly "the House that Love Built," thanks to the outstanding commitment of volunteers and the generosity of donors like the ISG. Through the generous support of our community, RMHC has been able to serve more than 29,000 families since 1985.

"We are very pleased to contribute to this wonderful children's charity," says Roger Sigler, Executive Director of the ISG.

The ISG event team lead by Doug Vetter worked with Ronald McDonald House of Phoenix personnel and solicited auction items and cash donations from its Members and Vendors. Doug Vetter (Legend ID), Bill Scott (Data Equipment), Danielle Jorgensen (ISG Marketing Manager), and Roger Sigler (ISG Executive Director) comprised the ISG event team. "The ISG wishes to thank its members and authorized vendors for their contributions to the success of this golf tournament and auction," said Roger Sigler, ISG executive director. "We are very pleased to contribute to this wonderful children's charity and look forward to another successful event next year."

About the ISG

The Identification Systems Group (ISG) is a nationwide network of local identification card system integrators, providing high quality, cost-effective solutions backed by the local support and strength of its Professional Services Certification program.
