

The Identification Systems Group (ISG) Introduces Integrated Identity System

The ISG announces its new cross-platform ONECard Integrated Identity Management System at ASIS International 2010 in Dallas, TX

Shawnee, KS (PRWEB) October 17, 2010

The Identification Systems Group (ISG), the nationwide network of local identification system integrators, introduced the ONECard Integrated Identity Management Platform at the ASIS Show in Dallas, TX. The ISG ONECard Identity Management Platform provides a world where one identity works with many applications.

The powerful synchronization tools and event notification service allow for real-time or scheduled messaging and cross-platform communications. The systems are fully modular in design and include ID Card Issuance, Access Control, Visitor Manager, and Video Surveillance. "The ISG's revolutionary Integrated Management Platform is the best in the industry," said Roger Sigler, executive director of the ISG. "It provides a single point of enrollment, badge issuance and identity management across multiple applications."

"The ISG's revolutionary Integrated Management Platform is the best in the industry," says Roger Sigler, Executive Director of the ISG.

"There was a need for cross-platform communication among various departments and applications," ISG's operations manager, Tom Stiles said. "We are excited that we can provide such a robust Integrated Management Solution that is reasonably priced and easy to understand." ISG's ONECard Platform is ready to take ID security to the next level and make credentials ready to use when issued. Various card types are read and written during the issuance process and resulting data sent to the needed databases. ONECard Issuance Systems automate the credential issuance process and revolutionizes the secure identity market.

About the ISG

The Identification Systems Group (ISG) is a nationwide network of local identification card system integrators, providing high quality, cost-effective solutions backed by the local support and strength of its Professional Services Certification program.
