TEMPbadge™ Self-Expiring Visitor Badges

Improved technology for better visual security and longer expiration times on temporary visitor ID badges

Our TEMPbadge™ self-expiring visitor badges are now better than ever with improved technology that gives you more vibrant colors, clearer expiration indicators, an additional time frame, and more!

Our badge backs feature a black box that prevents the migrating ink from bleeding through too soon. The expiration indicator on our TEMPbadge™ is also brighter and more vividly red, making it easier to see when the badge is no longer valid.

Each badge has the expiration time frame discreetly printed on the badge or liner, allowing you to make sure that the right badge is being used. Whether you need half-day, 1-day or 7-day expiration times, TEMPbadge™ gives you more flexibility.

ISG TEMPbadge Self-Expiring Visitor Badges 20201029
