

Datacard® Signature Pointe™ Solution

Incorporating the Signature Pointe solution into your photo ID program strengthens the security process of your enterprise.

Accurate and easy capturing of digital signatures

The Datacard® Signature Pointe™ solution includes everything you need to capture, store and print electronic signatures. The rugged signature pad features an interactive LCD that allows users to see their handwriting as they sign, minimizing the chance of errors. The integrated Signature Pointe software, part of the Datacard® Capture Pointe™ Series software family, can manage your entire electronic signature database. Accurate and reliable, the Signature Pointe solution offers an extra measure for organizations looking for an additional line of defense in their ID programs.

A reliable and flexible solution

- A durable pad with a tethered writing stylus delivers consistent, high-quality signature capture results.
- Designed for seamless integration with Datacard® IDCentre™ Silver or Datacard® IDCentre™ Gold identification software.
- Store signatures in Windows® Metafile Format (.wmf) or Bitmap (.bmp) file format.

Datacard® Signature Pointe™ Solution

The Signature Pointe solution increases the effectiveness of your photo ID program by reducing the risk of identity theft and fraud.
