# Onboarding & Badging: On-Demand

Mobile onboarding and badging gets your workers
on the job more quickly than ever before

Onboard & Badge Your People Anywhere, Anytime

Onboarding Made Easy: Mobile Document Capture

Collecting required information when bringing on new hires is always a pain. Not anymore.

Virtual Badge uses a secure, customizable, mobile onboarding process that saves everyone's time and keeps documents in one place.
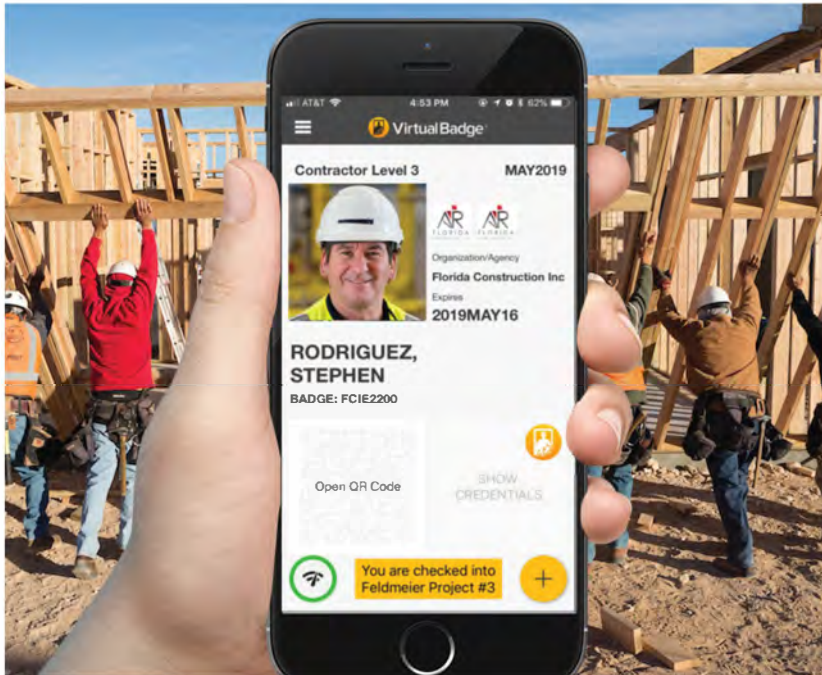

Badging On-Demand: Issue Smartphone IDs

Issuing old-school plastic badges is a really inconvenient and annoying process.

With Virtual Badge, workers can apply for their badges and managers can approve or deny them, all from a smartphone.

Identity & Workforce Management: Combined

Eliminate Paper Time Cards At The Job-Site

Often, workers forget to clock-in and lose their time cards, leading to disputes no one wants to deal with.

Virtual Badge makes it easier by automatically clocking workers in and out of the job-site.

Know What's Happening On-Site At Any Time

Knowing when or if a task has been completed can drive managers nuts and delay a project.

With Virtual Badge, task a badge-holder to take care of the problem, and download the report at a later date.

Virtual Badge®

Onboarding & Badging, Redefined. Take The Headaches Out Of Personnel Management

It can be very tedious and annoying to onboard multiple new hires, especially with high turnover or multiple contractors. No one thinks badging is a big issue until it starts taking unplanned, extra resources to get it done.

Rather than doing all the work yourself, empower your people to use Virtual Badge to collect documentation and issue badges more quickly and easily than with any traditional system.
