

Process 24/7 Bedside Mobility

Portable downtime solution for
patient management & label, tag
& wristband printing

Process 24/7 is available as an off-the-shelf Windows-based (desktop or laptop) software solution for downtime patient administration as well as for bedside, lab and pharmacy labeling and tagging. Process 24/7 can also work on mobile devices like tablets and notebooks. Simply connect to a portable printer to issue patient labels, tags and wristbands. The application also has the ability to use a laptop or tablet camera to capture photos for the patient record and using compatible devices, scan 1D and 2D barcodes for automatic data entry. In this HIPAA-compliant solution, patient data is encrypted and only accessible under administrator password control. Ask about our Process 24/7 Android® tablet solution that includes Bluetooth and Wi-Fi as well as a built-in scanner that makes connectivity and functionality simple.

ISG Process 24-7 Bedside Mobility 20220217
