

Process 24/7 Pharmaceutical Administration

Downtime solution for data entry
& printing prescription labels

Process 24/7 is capable of creating multiple custom forms in minutes. Data entry fields can be inserted and resized at 0, 90, 180 and 270 degree orientations. Multiple 1D and 2D barcodes can be easily assigned to each data entry field. Various security filters can be assigned to each data entry field to ensure against operator errors. Graphical logos can also be resized and inserted into tag, label and armband layouts. Process 24/7 supports ISG™, Zebra and compatible printers by utilizing Direct Print Technology. No Windows drivers are required, while supporting labels, infant tags, and armbands up to 12" long. Multiple network printer icons can be pre-programmed for one-click access from inside the application. A quick-launch USB printer icon provides a direct link to locally connected USB printers.

Key Features

- Automatic data encryption
- Import & export to Excel
- Supports multiple forms
- Secure administrator control
- Standard paper printer compatibility
- Includes data entry & virtual form designer screens
- Many other features

About the ISG

The Identification Systems Group (ISG) is a nationwide network of local experts in identification, security, tracking and card personalization technologies, providing high quality, cost-effective solutions backed by local support and the strength of our Professional Services Certification program. Each member company works together to provide seamless support and collaboration in the identification and issuance industries across the USA and Canada.
