

# Vinyl Holders with Transparent Color Bar

*Offering badge display and role recognition, this holder is ideal for meetings and conventions.*

Perfect for meetings, conventions and other large gatherings, these vinyl holders with transparent color bar offer the convenience of card carrying and display with the added bonus of role recognition. This flexible horizontal holder is made of clear PVC vinyl with a transparent color bar across the bottom. The color bar is transparent enough that text printed on the bottom of the insert can still be read. The holders can also be used with regular insert cards that don't feature pre-printed titles on the bottom; in these cases, the color bars can be assigned to different levels or personnel for easy role recognition. Also can add a custom printed tittle directly on the holder as well.

**Convenient** – The holder features convenient slot and chain holes for easy attachment to the wearer using a lanyard, neck chain or similar accessory.

**Attention-getting** – The transparent color bars are perfect for highlighting the wearer's title: simply use an insert card with a name or title printed at the bottom and the color bar will highlight the text for an eye-catching solution.

**Role-recognition** –The color bars can also be used as a standalone role-recognition solution. When using standard insert cards without a large title or name at the bottom, colors can be assigned to different levels of personnel, like blue for a conference attendee and red for a speaker.

## Specifications

Material	Vinyl
Product Dimensions	4.35" x 3.38"
