ANATOMY OF A LANYARD

MATERIAL

Choose from a wide selection of materials to best meet your needs. 3/4 (19mm) UltraWeave™, a smooth satin-like polyester material shown.

IMPRINT

Imprints vary from economical, durable one-color to extremely detailed and everlasting with multiple colors. Multi-color dye-sublimation imprint shown.

BREAK-AWAY

Safety break-away will disconnect under pressure and eliminate the risk of choking. Black, flat break-away shown.

FINISHING OPTION

Choose from a nickel plated steel crimp, black oxidized crimp, plastic bead, or stitched finishing options. NPS shown.

LANYARD ATTACHMENT

Lanyard attachments allow the wearer to hold almost anything they could possibly need. Offering several different attachments in a variety of colors and styles. Nickel-plated steel swivel hook shown.
