# Artista® CR805 Retransfer Printer with Tactile Impression Module

## HIGHLIGHTS

### Take security and card design to new levels of personalization

The Artista CR805 Retransfer Printer with Tactile Impression Module lets you easily personalize ID cards with high-resolution, full-color images and text, as well as with a unique color tactile printing technology.

- Superior image quality
- Expanded modularity
- Issuance security architecture
- Increased speed
- Increased durability
- Cloud compatible (coming soon)

## KEY FEATURES & BENEFITS

### Get a high-end look for every card design

- 600-dpi resolution retransfer printing provides precise, photo-quality imagery as well as microtext, bar codes, and other machine-readable elements
- Pigment ink prints lifelike skin tones so you can more accurately authenticate each cardholder to improve security

- Over-the-edge printing with retransfer technology allows you to print on multiple card types, including technology cards
- On-demand printing means you can print exactly the design you need, eliminating the need for pre-printed cardstock
- Tactile impression module adds eye-catching features to your cards to help promote your brand and set it apart from the competition

## Unmatched security

- Optional locks
- Secure boot protects system from malware or virus on boot-up
- Trusted Platform Module (TPM) manages the printer's own TLS/SSL certificates and keys
- Connection and data sent between software and printer is encrypted
- Customer data is encrypted and is not stored in the printer after printing is complete
- UV printing and other security features added to cards protect from tampering and counterfeiting

## Issue more durable cards and save on replacement costs

- Pigment ink provides longer-lasting images with resistance to UV fading
- Retransfer film adds a layer of durability; apply two for more protection
- Primerless ribbons have a unique pigment ribbon formation that does not require a primer panel, enabling faster print speeds of 110 cards per hour
- Extend card durability with primerless ribbons. The combination of primerless color ribbon and unique retransfer film improves card durability up to 50% greater in adhesion and abrasion resistance
- Primerless ribbons offer cost savings as a value-priced solution over original primer supply options

## Use its versatility to your advantage

- Print on card material with a glossy PVC surface, either 100% PVC cards or composite cards with a PVC surface
- Choose from a variety of standard tactile impression dies or customize your own
- Add color tactile impression to cards without having to add a card lamination module
- The only retransfer printer on the market offering color tactile printing with gold, silver, copper, black & white, and clear foil ribbons

## Flexibility and scalability built for the future

- Issuance capabilities include physical cards
- On-prem deployment
- Expand your ID program as your needs change by adding multi-hopper, smart card capabilities, color tactile printing, and more
- Print anytime, anywhere with your mobile device (iOS, Android, Windows)
