

Key Features

- Innovative product design
- Adaptable to any door or gate access control system
- Accepted by first responders throughout the USA
- Patented transceiver relay technology
- Proven to reduce emergency response delays

Click2Enter Emergency Access Control

Mandated by Public Safety
Agencies Throughout
the United States

There is no cost to public safety agencies, because they already possess the access control "key" - their own radio transceiver.

Don't risk untimely delays during an emergency response as every second counts. Forcing emergency responders to STOP their vehicles to enter a code, activate a key, or fail to get in at all, can have a catastrophic outcome.

Click2Enter can operate both your gates and doors for a comprehensive overlaying emergency access response.

Key features and benefits include:

- Mutual Aid Control
- Stealth Operation
- Improved Response Time
- Officer Safety Friendly
- Increased Security over Light & Siren Systems

Use your own radio receivers to access gates and doors in seconds, so as quick as you can click, you are in. Click2Enter supports mutual aid, so your response is not delayed.

Technical Features

- Large Frequency Capacity - 100 Channels
- Operates within All Allocated Frequency Spectrums - VHF High & Low and UHF High & Low
- Programmable Time Delay on Main Gate Control Relay
- Software Interface for Easy Programming
- Operates in Sub-Zero Temperatures
- Capable of Operating with CTCSS (PL & DPL) Private Line Coding
- Bright Activation and Power LEDs
- Dual Dry Contact Relay Outputs
- Relays can be Independently Control via Chip Firmware
- Activation History Data Logging for Export to Computer File
- Enclosure NEMA 4x Rated
- Reflective Front Identification Label to Support Faster Nighttime Identification

Your Local ISG Dealer

About the ISG

The Identification Systems Group (ISG) is a nationwide network of local experts in identification, security, tracking and card personalization technologies, providing high quality, cost-effective solutions backed by local support and the strength of our Professional Services Certification program. Each member company works together to provide seamless support and collaboration in the identification and issuance industries across the USA and Canada.
