EM Designs (EMD) excels in producing detailed threat, vulnerability and risk assessments, as well as investment justifications tailored for cybersecurity, security and safety grant applications. These documents not only pinpoint vulnerabilities, but also recommend mitigating controls and preparation strategies, all integrated seamlessly into various security-related grant submissions.

EMD also offers post-award management and administrative services, providing flexible, comprehensive support that adapts to the dynamic needs of clients throughout the grant management process. Partnering with the ISG, they are wholly committed to client satisfaction that fosters successful, long-term relationships.

Unlike general grant writers, EMD focuses exclusively on security and cybersecurity grants, ensuring expert guidance tailored to end user needs. Their team is backed by security consultants with over 20 years of industry experience, making them the go-to specialists in this field.

Get the help your institution needs for custom grant writing and funding applications with expert advice and proven processes from EM Designs and your local ISG member dealer.

Your Trusted Grant Resource

EMD helps your organization identify your safety and security needs, research potential grant funding opportunities, connect you with key funding agencies, and writing a custom application that gives you the best chance of success.

EMD delivers everything you need in a professional grant writing partner, from design concept to complete award administration. They even help you manage funding after the award to make sure that all grant elements are met and payments are delivered to meet deadlines.

EMD also helps you maintain contact with funding agencies after an award to increase your odds of winning future grant opportunities.

EM Designs Security Grant Consulting is a trusted partner in securing funding for security and cybersecurity projects. With over 15 years of experience and an outstanding 90% success rate, EMD has helped schools, nonprofits, healthcare organizations, law enforcement and municipalities win 100% of available grant funding for critical security initiatives.
